

## B. Annexure 02 - Mapping and Listing - Definitions

**Table 2 Mapping and Listing - Definitions**

<b>Location map</b>	The location map was a reference picture of a PSU. It was prepared for the entire village(s) for rural areas and CEB for urban areas.
<b>Layout sketch map</b>	It is a detailed map of the census block or village showing all the streets and built structures within the street.
<b>Structure</b>	A structure was defined as a free standing building having one or more rooms.
<b>Dwelling</b>	A dwelling unit was a room or group of rooms occupied by one or more households (for example: a single house, an apartment, a group of rooms in a house), which had an independent entrance from the street, corridor or other common or public area.
<b>Household</b>	Constituted a person or group of persons who commonly live together and would take meals from a common kitchen unless the exigencies of work prevented any of them from doing so.
<b>Head of the household</b>	The head of the household was the person usually responsible for the maintenance of the household and was acknowledged as a decision maker/as such by all members of the household.
